## EXPERIENCE

**School** 08/2023 - Present  
**TADi** Tashkent

link: <https://smartsafeschool.tadi.uz>

link: <https://smartsafeschoolback.tadi.uz>

- Here is a real project in which I developed numerous APIs. I employed query-sets to enhance speed and efficiency. Initially, the project utilized a SQL database before it was sold, but now it has transitioned to PostgreSQL. (Rest-API)
- It was a project that integrated AI. Parents, teachers, and the school director can monitor their children's emotions on a daily and monthly basis, like when the child comes to school and leaves there...

**Car-Wash** 12/2023 - 02/2024  
**TADi** Tashkent

<https://tadavto.vercel.app>

<https://carwash-back.tadi.uz>

- The project can calculate the frequency of visits to the car wash center and offer discounts to the top 10 visitors. Additionally, it tracks the daily and monthly number of visitors.

**WORKERS** 04/2023 - 06/2023  
**TADI** Tashkent

link: <https://workers.tadi.uz>

link: <http://workers-back.tadi.uz>

- It was for workers checker when they came to office and leave, also AI included for catch face emotion through all cameras

**Region Taxi** 02/2023 - 04/2023  
**Pet Project** Tashkent

link: <http://odammas.uz>

- My first own pet project for travelers from one region to others. It assists individuals in locating taxis within selected regions. I developed both the front-end and back-end components just by myself.

**Django Backend Developer(freelance)** 2022 - 2023  
**UPshop uz** Chilonzor

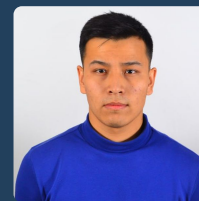

link: <https://upshop.uz/>

- Developed RESTful APIs using Django Rest Framework
- Optimized database model

**GTSP** 09/2023 - 12/2023  
**TADi** Tashkent

link: not public

- it's threat protector. The real server is hidden behind this project !
